SPECIAL THANKS ADVERTISING SECTION 24

Dear Friends,

We are pleased to welcome you to the 27th Annual Friends of Acadia Benefit Auction. What an amazing year this is, and what an amazing time to be a friend of Acadia National Park.

One hundred years ago, Acadia National Park was conserved to ensure that its stunning beauty, natural wonders, and cultural treasures would be protected for the inspiration and enjoyment of all. This, together with subsequent efforts that created the Acadia we all love so dearly today, was the achievement of many individuals and families—people like you, who had been rejuvenated and inspired by Acadia’s unique coastal landscape.

Throughout this year we are celebrating their foresight and generosity. At the same time, Acadia’s Centennial offers a challenge to us all to renew the passion and vision that is the founders’ legacy—to ensure that Acadia National Park is protected for generations to come.

The Benefit Auction committee volunteers, headed by co-chairs Whitney Kroeger Connor and Elizabeth Seherr-Thoss, have taken up that challenge in planning this extra-special centennial event. We appreciate the volunteers, Benefit Patrons, and Business Sponsors who make the Benefit Auction possible. Special appreciation is due to the many artists, individuals, and businesses who contributed the auction items in this preview catalog.

By participating in the Benefit Auction—by bidding on live or silent auction items at the event, bidding online until August 24, sending in an absentee bid, or by simply attending the event or making a donation in support of it—you will make a real and lasting difference in the protection of Acadia. We will use proceeds from the Benefit Auction to support new and ongoing programs in Acadia that protect natural and cultural resources, engage youth, and contribute to a quality visitor experience in the park. Funds contributed during this year’s Paddle Raise will help Acadia National Park and Friends of Acadia restore the Seaside Path, a very special Village Connector Trail, offering a nod to the past (by bringing back a rusticator-era route in Seal Harbor) and a look to the future (by helping to reduce auto congestion at Jordan Pond, one of the park’s busiest areas)—see details on page 10.

We all are the “founders” of Acadia’s tomorrow. Through your purchases and your presence, you will help to create a brighter second century for our beloved park.

With appreciation,

David MacDonald

Raise Your Paddle to Help Restore the Historic Seaside Path and Other Village Connector Trails

For more than 100 years, the Seaside Path has been an important connector trail linking two iconic places on Mount Desert Island: Jordan Pond and Seal Harbor Beach. Designed and maintained by the Seal Harbor Village Improvement Society, the path traverses both park and private land, winds through a mossy, coniferous forest, and passes beneath the triple-arched Stanley Brook Carriage Road Bridge. Although the path was removed from Acadia's formal trail system in the 1950s, recent trail management plans call for the restoration and in some places relocation of the Seaside Path as part of a broader effort to restore village connector trails.

As Acadia enters its second century, restoring or establishing village connector trails is an important part of the park's strategy to reduce traffic and provide car-free experiences in Acadia.

if it treats the natural resources as assets
which it must turn over
to the next generation increased
and not impaired in value.”
